

**Single center, 2012-2020, Restrospective study
21 Pediatric Hemato-Oncology Patients in ECMO**

- **6/21 (29%) survived in PICU**
- **5/21 (24%) survived in Hospital**
- **3/5 (60%) survived on septic shock**
- **0/14 (0%) survived on ARDS**
- **1 year survival rate 38% (95% CI 0.21-NA)**

Supplementary Figure 1. Kaplan-Meier survival curve of extracorporeal membrane oxygenation support (ECMO). ECMO: extracorporeal membrane oxygenation; PICU: pediatric intensive care unit; ARDS: acute respiration distress syndrome; CI: confidence interval; NA: not available.
